

PROFILE SUMMARY

Results-driven Data Scientist with a strong foundation in data analysis, statistical modeling, and machine learning. Skilled in building predictive models, extracting insights, and working with large-scale datasets using Python, SQL, and cloud platforms like Azure and GCP. Hands-on experience with analytics, business intelligence, and large-scale data infrastructure. Familiar with Generative AI, Prompt Engineering, and AI-powered data workflows to enhance intelligent applications.

EDUCATION

Bachelor of Technology in Computer Engineering (2021-2025) | 6.81 CGPA

Kashi Institute of Technology, India

Class 12 | 74%2021

Little Flower House, Varanasi

Class 10 | 84%2019

TECHNICAL SKILLS

Languages:	Python SQL Java PHP Javascript
Technologies	Data Analysis Artificial intelligence Machine Learning PyTorch TensorFlow Numpy Pandas Matplotlib Seaborn Scikit-learn
Tools:	MS Excel Power BI Tableau Mockup AI Streamlit Git Github Jira Airflow Spark Apache Kafka Langchain AWS Azure Mongo DB Cassandra DB N8N (AI)
Other Technical Expertise	React JS Spring Boot DevOps Cloud Computing Spring AI Rest API WordPress Docker Kubernetes Node JS HTML Bootstrap Jenkins
Other Skills:	Effective Communication Analytical Skill Statistical Skill Time Management

WORK EXPERIENCE

Software Developer Intern (Internship) | DIZI GLOBAL SOLUTIONSeptember 23 - October 23

Key Result Areas:

- Contributed to software development by developing web applications, and implementing CI/CD pipelines to streamline project delivery and ensure efficient deployment.
- Successfully delivered multiple projects aligned with client requirements, contributing to a 10% increase in organizational sales during the internship period.

PROJECTS

AI PDF Reader

- Developed an AI-powered PDF reader using LangChain, Streamlit, Gemini LLM, FAISS, and Pinecone, enabling users to query documents and receive precise, context-aware responses effortlessly.

Data Cleaning & Processing with Interactive Dashboard

- Designed an interactive and visually appealing Power BI dashboard for telecom analysis, integrating ETL processes and machine learning predictions using tools like MS Excel and Pandas.

Data Analysis and Interactive Report

- Developed comprehensive reports using Python libraries like NumPy, Pandas, Matplotlib, and Seaborn, performing Exploratory Data Analysis (EDA) and leveraging SQL for efficient data cleaning.

CERTIFICATIONS

- Microsoft AI Certificates
- Advanced Digital Marketing
- Robotics
