

PROFILE SUMMARY

Results-driven **Software Developer** specializing in **full-stack development**, building scalable applications using modern frameworks, RESTful APIs, microservices, and cloud platforms like **GCP, Azure**. Skilled in **Generative AI, RAG, MCP, fine-tuning**, and **prompt engineering**, with experience in analytics, **business intelligence**, and data-driven workflows for intelligent applications.

EDUCATION

Bachelor of Technology in Computer Engineering (2021-2025) | 6.81 CGPA

Kashi Institute of Technology, India

Class 12 | 74% **2021**

Little Flower House, Varanasi

Class 10 | 84% **2019**

TECHNICAL SKILLS

- Languages: Java | PHP | Python | JavaScript | SQL
- Technologies: HTML | CSS | React Js | Spring AI | DevOps | Cloud Computing | Spring Boot | Rest API | Apache Kafka | Artificial Intelligence | Data Analysis | Node JS | Jenkins
- Tools: WordPress | Langchain | N8N (AI) | Git | Github | Jira | Power BI | Tableau | Fast API | Streamlit | LamaIndex | Kaggle | Hadoop | AWS | Azure | Kubernetes | Docker | MS Excel | Postman | Gemini LLM | Open AI | Hugging Face | PyTorch | TensorFlow
- Other Skills: Effective Communication | Analytical Skill | Quick Learning | Time Management

WORK EXPERIENCE

Software Developer Intern (Internship) | DIZI GLOBAL SOLUTION **September 23 - October 23**

Key Result Areas:

- Contributed to software development by developing web applications, and implementing CI/CD pipelines to streamline project delivery and ensure efficient deployment.
- Successfully delivered multiple projects aligned with client requirements, contributing to a 10% increase in organizational sales during the internship period.

PROJECTS

AI PDF Reader

- Developed an AI-powered PDF reader using LangChain, Streamlit, FAISS, and Pinecone, enabling users to query documents and receive precise, context-aware responses effortlessly.

Expense Tracker

- Built a full-stack PHP expense tracker to monitor daily spending, helping users cut costs by 10% and improve financial habits.

Product Management Website

- Developed a product management website using React JS and Spring Boot, featuring a tailored product catalog with several products.

Data Cleaning & Processing with Interactive Dashboard

- Designed an interactive and visually appealing Power BI dashboard for telecom analysis, integrating ETL processes and machine learning predictions using MS Excel, NumPy, Pandas, Matplotlib, and Seaborn.

CERTIFICATIONS

- Microsoft AI Certificates
- Advanced Digital Marketing
- Robotics
